

South Carolina
DEPARTMENT OF AGRICULTURE
METROLOGY LABORATORY
 237 Catawba Street, Columbia, SC 29201

Hugh E. Weathers, Commissioner

Before submitting provers for calibration, the South Carolina Metrology Laboratory requires that all surfaces of the provers (inside and outside) must be cleaned of all petroleum product and residues. Also, any drain line, pump, hose or storage tank used in the calibration must also be free of petroleum and petroleum residue. Provers deemed by the metrology staff to be not sufficiently clean will be refused and returned for cleaning. Cleaning will not be allowed at the laboratory.

A signed copy of this Certification of Prover Cleaning Form must be on file for each prover before they are accepted for calibration.

Certification of Prover Cleaning
