FEEDING 800 KIDS IS NO PICNIC DIANNE'S CALL HANDLES SUMMER LUNCH PROGRAM

STORY & PHOTOS BY MARSHA HEWITT

If you think packing a picnic lunch is a big deal, try cooking, packing and delivering 800 kids' meals—five days a week!

That's just what Bonita Clemons and Bobby Percival are doing this summer. Bonita's non-profit agency, Dianne's Call, is a sponsor for the Summer Food Service Program. This federally funded program ensures that children continue to receive

The kitchen is where most of the work is done, with food being cooked, served, heat-sealed, and packed into insulated bags. Packing lunches are Brandon Faust, Bill May and Brittany Horres.

nutritious meals when school is not in session. The meals are free to school-aged children 18 and younger.

Bobby is the managing partner of Dupre Catering and Events, located at the SC State Farmers Market. The meals are prepared and shipped from The Market Restaurant, with the help of nine kitchen staff, six packers, four drivers, and several volunteers.

Dianne's Call prepares and delivers meals for 800 children at 12 sites

that are scattered among Richland County and beyond. Harvest Hope provides the meals to five of the sites during the school year.

The program provides both hot and cold lunches on a schedule. Each meal includes a protein, a vegetable, a fruit, and a grain, all USDA approved. Last week, Thursday's lunch menu was barbecued chicken, corn, apple, and a whole wheat roll. Snacks vary from string cheese to yogurt to fresh fruits and whole wheat or grain crackers.

The hot food is cooked, served into individual portions on trays, heat sealed, and put in insulated bags for shipment. The cold food—sandwiches, salads, vegetables, fruit and fruit juice— goes into coolers. Each meal includes a mandatory serving of milk for every child.

"The timing is crucial," Bobby said. "From 8 to 11 every morning is intense." The first delivery truck leaves about 10 a.m., and the last goes out at 11:15. Adding to the intensity is the fact that the number of meals varies day to day. The site managers call if

they know they will have additional children, or if their numbers are down for the day. The meals are adjusted accordingly.

"Any kid can go to a site any day," Bonita explained. "The managers try to let us know how many they have. We are traffic controllers all day, every day."

Actually, the staff prepares two meals a day for each child. Each site manager can choose any two meals, which include breakfast, lunch, snack, or supper. Most want breakfast and lunch but some request lunch and snack.

"We produce 7,000 to 8,000 meals each week," Bobby said. He and Bonita develop the menus well in advance, order the food, and coordinate the staff.

The coolers and insulated bags are loaded into special trucks. Coordinating the routes requires precision, with four drivers for 12 sites and strict

COMMISSIONER'S CORNER

HUGH E. WEATHERS
SOUTH CAROLINA
COMMISSIONER OF
AGRICULTURE

NO. 1 IN SC

How many great tasting reminders have you had this summer of how fortunate we are to live in South Carolina? Some might say it comes with the high price of heat and humidity, but every time I fill my plate with Certified SC Grown corn, tomatoes, peaches, watermelon and other summer bounty, I may not be cool as a cucumber but I sure am grateful. Several times this summer – at church, a wedding, funeral or other gatherings, I've been asked how our farmers are doing, and I always take advantage of the opportunity to talk about our state's largest industry.

What does that mean that agribusiness is South Carolina's largest industry? Plain and simple, agribusiness generates a \$41.7 billion economic impact in our state each year. It is responsible for more than 200,000 jobs. Nearly five million of the state's 20 million acres is farmland. We have more than 25,000 farmers.

All of these facts and figures are impressive, but we know that South Carolina is fertile ground for more growth and expansion. You've probably heard me talk about 50 x 20, and our Office of Agribusiness Development is working diligently with the SC Department of Commerce and regional economic development alliances and boards to grow the economic

impact of agribusiness to \$50 billion by 2020.

It's important to clarify that growing agribusiness in our state is not about using our resources to attract farmers to South Carolina to compete with existing farmers. Rather, three key elements guide our process: job creation, capital investment and the production and use of Certified SC products. Growing agribusiness means growing opportunity for our rural communities.

In addition to promoting our 41,000 miles of highway, our prime location between Miami and New York and the country's most efficient port, we are proud to boast to prospective agribusiness our enviable southern lifestyle, our able workforce and our relatively low cost of living. Add in new laws that make it easier for business to locate and expand here and our continued support of legislation that will offer tax incentives to companies that use Certified SC products, and our story is an enticing one.

So far in 2018, we've closed 10 new agribusiness-related economic development projects which represent more than 800 new jobs and almost \$500,000,000 in capital investment. I'll keep you posted on our progress and hope you'll join us in spreading the word about South Carolina's number one industry.

Hugh E. Weathers

UPCOMING EVENTS

May River Shrimp Festival

July 19 • 5 – 9 pm & July 20 • 4 – 9 pm
Feast on local shrimp, seafood, food from food trucks & restaurants, a craft beer garden, arts & craft village, shrimp boat tours. Ladies Night on Thursday. Live music featuring Two Guys from OCD, La Bodega (19th) and Bobby Magyarosi, Btown Playaz (20th).
55 Wharf St., Bluffton, SC
843-757-8520

South Carolina Peach Festival

July 19 – 28
Kick-off at Gaffney Town Hall featuring a live band on Thursday. Mud Bog at Lake Whelchel on Friday. Saturday features a road race, pageant, BBQ cook off, carnival, arts and crafts, and car show. New Talent Night will be July 26; July 27 features wrestling; July 28 has the Dirt Race at Cherokee Speedway.

FSMA Produce Safety Rule Grower Trainings

July 24 • 8:30 am – 5 pm
Orangeburg County Cooperative Extension
August 22 • 8:30 am – 5 pm
Coastal Research and Education Center, Charleston

Produce growers who must meet the requirements of the FSMA Produce Safety Rule are invited to attend this Produce Safety Rule grower training course. The course is a way to satisfy the requirement that states: “At least one supervisor or responsible party for your farm must have successfully completed food safety training at least equivalent to that received under standardized curriculum recognized as adequate by the Food and Drug Administration.”

The South Carolina
Market Bulletin

(ISN 0744-3986)

The Market Bulletin is published the first and third Thursday of each month by the SC Department of Agriculture, Wade Hampton State Office Building, Columbia, SC 29201. Periodicals postage paid at Columbia, SC 29201.

Postmaster, send address changes to:
SC Market Bulletin
PO Box 11280, Columbia, SC 29211

POLICIES FOR ADVERTISING

Only ads pertaining to the production of agricultural products and related items are published.

Only one ad per category is allowed, but readers may submit ads in up to four different categories. “For Sale” ads must include a price. Ads will be published one time only. Out-of-state ads are not accepted.

The advertiser’s name, complete address and phone number (with area code) are required for each ad. Ads can be no longer than 150 characters including name, city, and phone number.

Ads are published free of charge and in good faith. The Market Bulletin reserves the right to edit and verify ads but assumes no responsibility for their content.

Ads cannot be accepted from agents, dealers or commercial businesses, including real estate. Sealed bids, legal notices or consignment sales are not accepted.

The deadline is noon on Tuesday of the week before publication.

Ads may be submitted by:

- **Mail:** SC Market Bulletin Advertising, PO Box 11280, Columbia, SC 29211. Please use 8½ x 11 inch paper. Do not use all capital letters.
- **Fax:** 803-734-0659
- **Online:** Go to www.agriculture.sc.gov. Look for Market Bulletin, select “post an ad,” and follow the instructions. If an email address is included, a reminder will be sent for ad renewal.

FEEDING 800 KIDS IS NO PICNIC

Continued from page 1

schedules for arrivals. And that’s not all. The drivers have to pick up the coolers and bags from the day before, and bring them back to the kitchen.

Last year—Bonita’s first with the summer feeding program—Dianne’s Call served 150 children. “It’s much easier now, because of the infrastructure, the size and space of this kitchen, and Bobby’s knowledge,” she said. “I understand business, and I run this like a Fortune 500 company.”

Bonita has a passion for food, and for good health. The mission of Dianne’s Call is to connect families with good, nutritious, fresh food. Her target group is women, who buy and prepare the food, and children. Her goal is to incorporate more fresh food from South Carolina into families’ lives.

“My vision is to create a world of wellness,” she said. Dianne’s Call is improving the health of children in the Midlands.

Bonita Clemons helps in every facet of meal packing and distribution.

Insulated bags keep foods cold during delivery to 12 sites.

Chef Drew Thompson prepares mac and cheese, with turkey ham, for one of the hot lunches.

Bobby Percival inspects the contents of each cooler before the food is put on delivery trucks.

SC SOYBEAN BOARD GETS RESEARCH UPDATE

STORY & PHOTOS BY MARSHA HEWITT

FLORENCE – For its quarterly meeting, the SC Soybean Board met at the Pee Dee Research and Education Center. They enjoyed a field tour showcasing the latest in soybean check-off funded production research and grower information.

Dr. Ben Fallen, soybean breeder for Clemson University, led a tour around the acre center. He took the group to several fields, where he illustrated the use of cover crops, sub-soiling before tilling, the advantages of different equipment like sweepers and coulters, and the effects of rainfall on the beans.

“One of our goals is to see how varieties do in certain environments,” he explained. On such a large acreage, the soil varies from sandy to heavy, which mimics conditions across the Pee Dee.

Dr. Fallen pointed out several population fields, where the soybeans are planted in 10-foot plots. “This allows us to see the segregation and what we’re actually working on,” he said. The farmers seemed interested in a new way of keeping deer out of the fields. A thin white tape known as “Plot Saver” seems to be effective at repelling deer on the Pee Dee REC.

The soybean breeder finished by talking about some of the yield trials, where different practices are evaluated for effectiveness. “The more time you spend in the fields, the more you learn,” Fallen said.

In another presentation Juliet Wilkes, a PhD student at Clemson University who is working with Dr. Fallen, explained the nematode research she is conducting. “In general, sandy soil harbors more

nematodes, but with 300 host species, it’s difficult to control them,” she said. There are many different species of nematodes. “Ultimately it’s how nature works, and how we work with nature.”

After lunch the board continued with their regular business, discussing opportunities on how to better serve and reach SC soybean farmers through the soybean check-off. The SC Soybean Board encourages farmers to share their feedback and input on research projects that they would like to see funded by the check-off in the future.

For more information about the SC Soybean Board, visit scsoybeans.org.

Dr. Ben Fallen indicates the end of a field bordered by tape that is designed to keep deer out.

The soybean board spent the morning touring fields, learning new tillage methods, and asking questions.

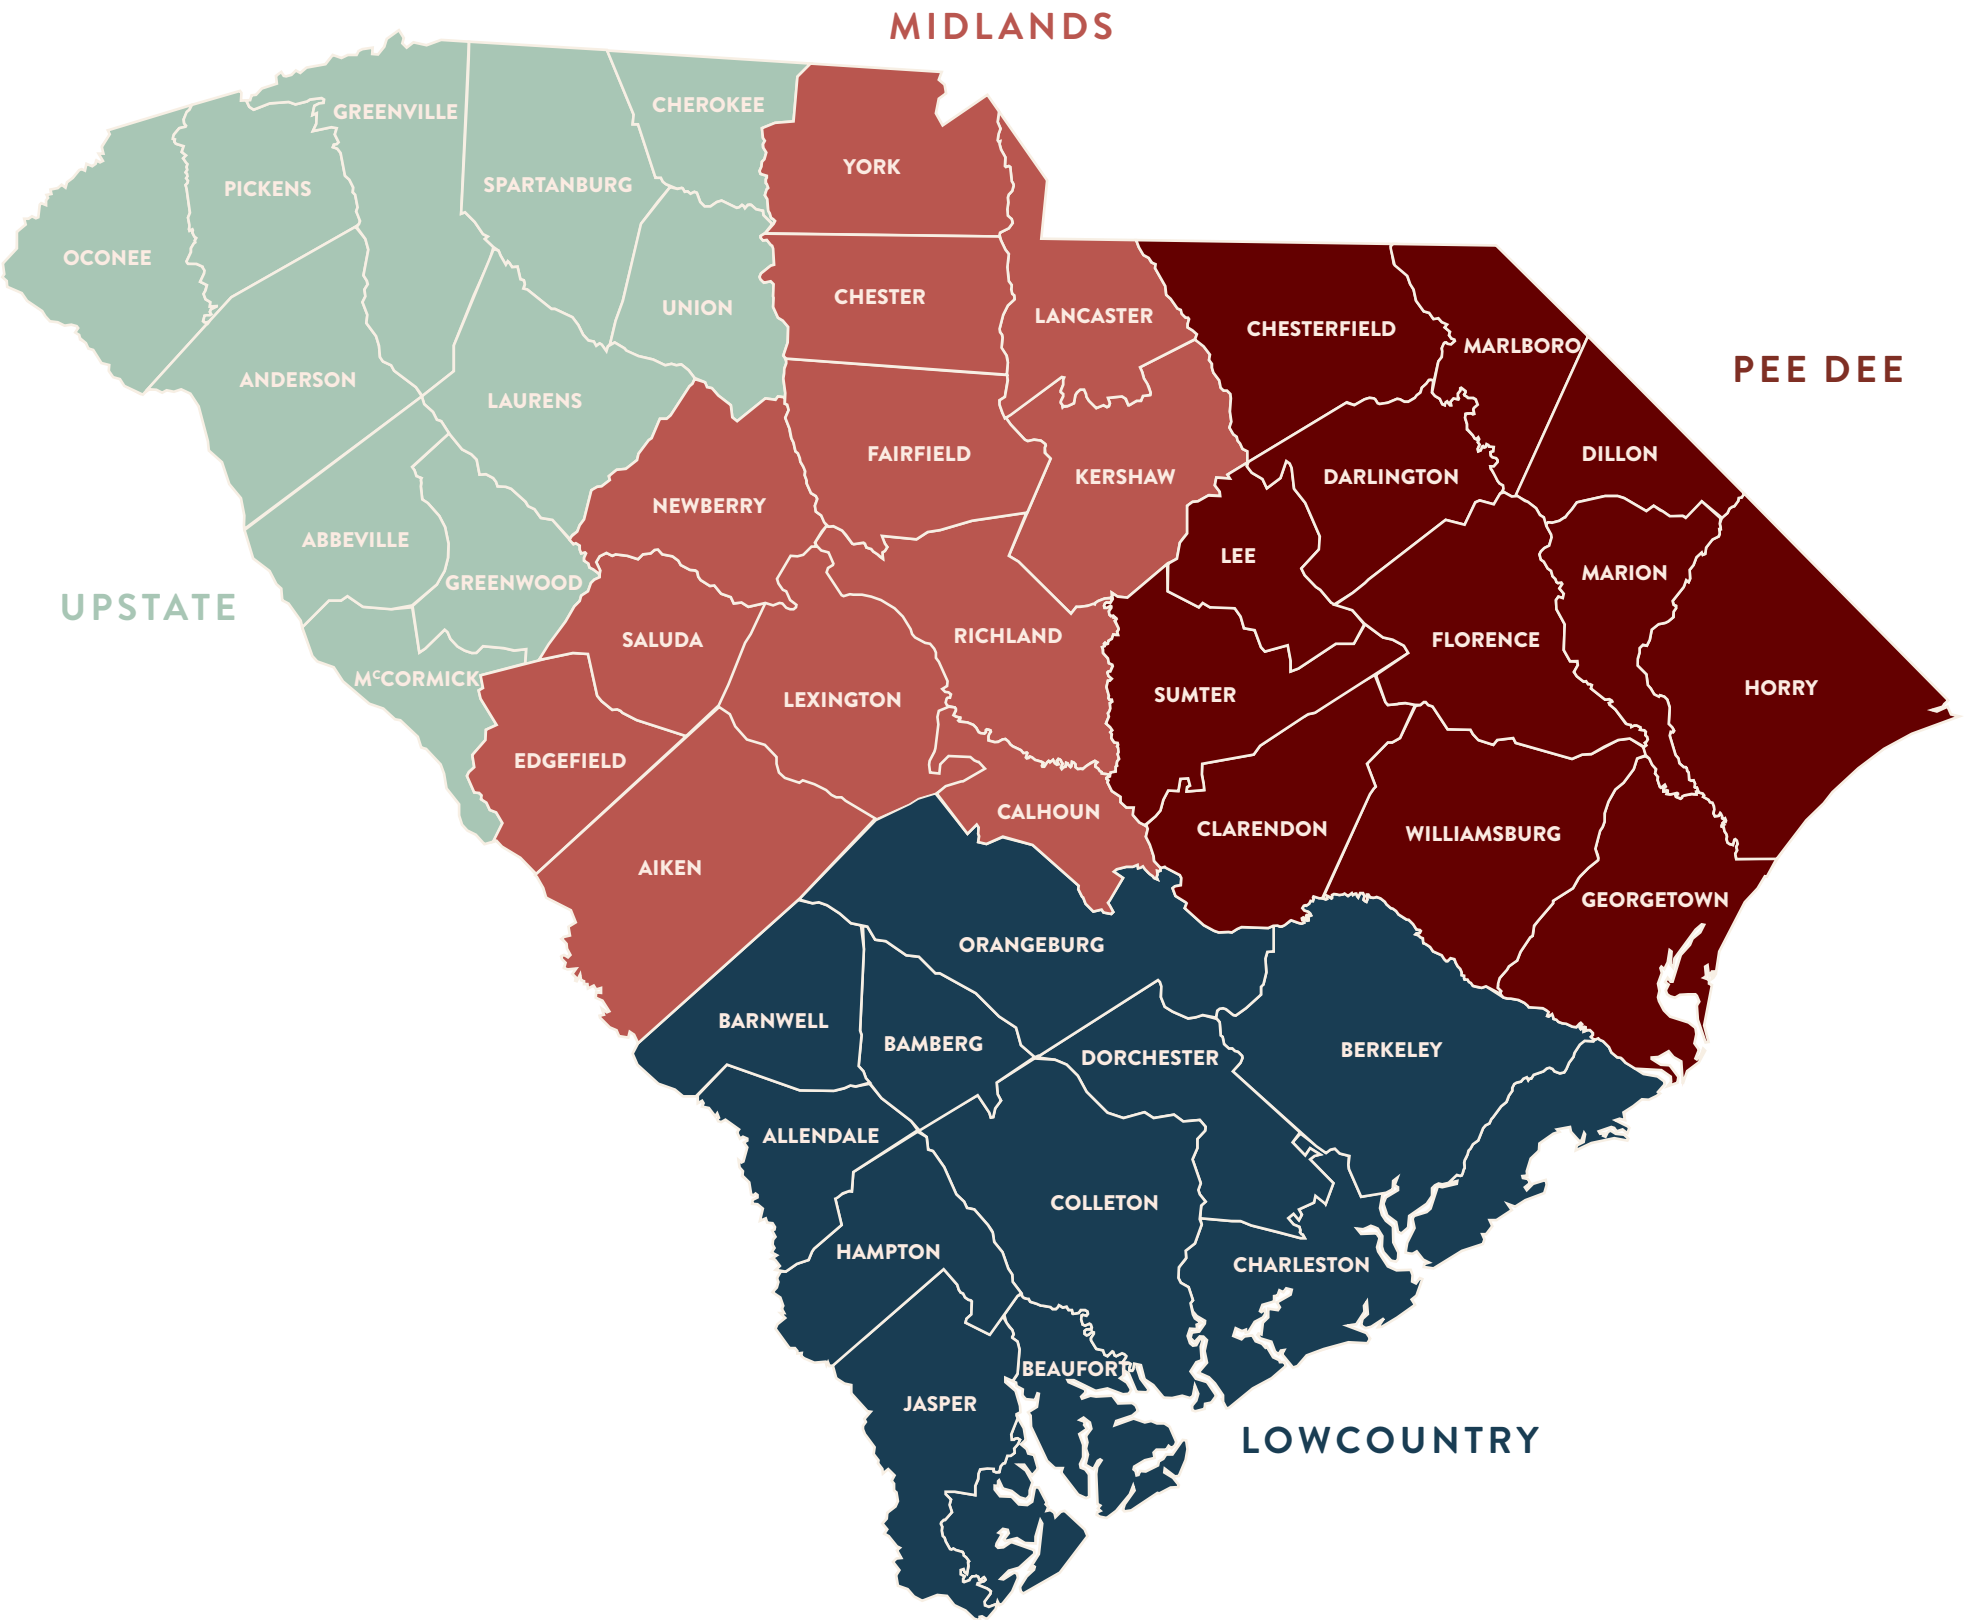

This field is planted in 10-foot plots so researchers can compare varieties and yields.

Juliet Wilkes explains some of her nematode research to the soybean board.

AG OFFICIALS ATTEND SASDA IN MISSISSIPPI

Several officials from the SC Department of Agriculture are attending the Southern Association of State Departments of Agriculture (SASDA) annual meeting this week in Biloxi, MS.

This yearly event allows an exchange of information between agriculture departments in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Puerto Rico, Tennessee, Texas, Virgin Islands, Virginia, and West Virginia. The current president of SASDA is Andy Gipson, Mississippi's Commissioner of Agriculture.

Through networking and formal presentations, states share their proudest accomplishments. Some of SCDA's achievements include Certified South Carolina, Farm to School, our expanding export business, and the 23 percent growth in agribusiness in the Palmetto State since 2006, generating \$41.7 billion and supporting more than 212,000 jobs.

For more information on SASDA, visit sasda2018.com/conference-program.

WATERMELON FIELD DAY

The Edisto Research and Education Center in Blackville hosted its annual Watermelon Field Day on July 12. Researchers discussed a wide range of topics including the importance of pollinators and how they relate to increased yields. Organic practices were also discussed, as well as chemical options to help control diseases. One of the highlights of the day was tasting and comparing many watermelon varieties grown at the center. Growers were able to analyze the size, shape, color, and taste of each watermelon to determine what to grow on their farms in the coming years. About 300 farmers from across the region attended, and each visitor was encouraged to take a watermelon home.

INDUSTRIAL HEMP APPLICATIONS ACCEPTED FOR 2019

The SC Department of Agriculture has received 162 applications for the 2019 Industrial Hemp program. The application period ended June 29.

SCDA will select up to 40 farmers to receive industrial hemp permits. Those farmers who receive permits will each be allowed to grow up to 40 acres of the crop. The 2018 pilot program allowed 20 farmers to grow up to 20 acres of industrial hemp.

"Expanding the Industrial Hemp Pilot Program will give us a greater opportunity to assess where and how this crop grows best in South Carolina," said Hugh Weathers, SC Commissioner of Agriculture. "Ultimately, industrial hemp is about crop diversity, new business for our rural farmers and economic development in South Carolina."

SCDA plans to name the growers by mid-September.

BLUEBERRY & RASPBERRY TART

BY CHEF HEIDI VUKOV SERVES 10 - 14
CROISSANTS BISTRO AND BAKERY • CROISSANTS.NET

- INGREDIENTS**
- 1 ¾ cups all-purpose flour, divided
 - ¼ cup sugar
 - 6 ounces butter
 - 2 Tbsp lemon juice
 - ¾ cup sugar
 - ¼ teaspoon cinnamon
 - 5 cups fresh blueberries, divided
 - ½ cup fresh raspberries
 - Confectioners' sugar
 - Fresh whipped cream

PASTRY DIRECTIONS
Preheat oven to 350°.

Mix 1 ½ cups flour, sugar and butter with pastry blender. When mixture is coarse, sprinkle with lemon juice. Mold with hands until it forms dough. Press into a 9-inch spring form pan.

TOPPING DIRECTIONS
Mix the remaining flour, sugar, cinnamon and 4 ½ cups of blueberries together in a separate bowl. Spread evenly over top of the pastry bottom. Bake until bubbly, approximately 50 minutes.

Remove from oven and sprinkle with ½ cup blueberries and ½ cup raspberries. Sprinkle with powdered sugar when cool, and serve with a dollop of fresh whipped cream.

PEACH ENCHILADAS

SERVES 16

Photo by Stephanie Finnegan

- INGREDIENTS**
- (2) 8 oz tubes crescent rolls
 - 2 sticks butter
 - 4 South Carolina peaches, peeled & quartered
 - 1 ½ cups sugar
 - 1 teaspoon cinnamon
 - (1) 12 oz can citrus flavored soda

DIRECTIONS
Preheat oven to 350°. Peel and quarter peaches. Melt butter. Add sugar and cinnamon. Unroll crescents and place peach quarters in each one. Roll up from large to small end. Place in a 12" x 10" x 2" pan coated with nonstick spray. Pour butter mixture over rolls and pour citrus soda on top. Bake at 350° for 45 minutes.
